

Shipping Instructions
Shipping Silver Recovery Products from Canada to the U.S.

- I. All shipments should be made via Canadian Freightways (CF).
- II. A bill of lading and a copy of a "Commercial Invoice" must be given to the Canadian Freightways driver at the time of pick up.

A. Bill of Lading preparation:

1. List consignee as: CPAC Refining Services, 1520 Pioneer Road, Salt Lake City, UT 84104. Telephone: (801) 972-3407 Fax (801)972-3499.
2. List complete name and address of shipper.
3. Check "freight collect" box
4. Describe material as:

For flake:

Containers Used Metal Chip to Include: Flake Item #136500 Sub 1 Class 70 RVNX .40

For cartridges, sludges, etc:

Containers Photo Residue, Solutions Exhausted Film Developing, Liquid, Not Concentrated to Include: Sludges, Tank Scrapings & Cartridges. Item #195410 Class 60 RVNX .40

When shipping multiple pieces:

- A. When palletized - each piece on the pallet must have a shipping label attached. List each pallet separately. (Include the number of pieces on each pallet)
 - B. Not palletized - each container must have a shipping label attached. List the total number of pieces and their combined weight.
5. Type / write clearly on the face of the bill of lading, "For customs clearance at the border contact A.N. Derringer."

B. Commercial Invoice Preparation:

1. Create a "Commercial Invoice" as follows: write "Commercial Invoice" near the top of a sheet of your company letterhead and list the following information:

A. Date

B. Shipped to: CPAC Refining Services, 1520 Pioneer Road, Salt Lake City, UT 84104.

C. Material shipped: describe material as on bill of lading and include weight of shipment.

D. Value - estimate value of shipment:

For Flake: Net wt x 14.583 x 5.00 x .9 = approx. value

For Cartridges: \$50.00 per unit
