

Graphic Arts Film & Plate Chemicals, Equipment & Supplies

FILM CHEMISTRY AND MIXING EQUIPMENT

Our most popular products, Laser-14 Rapid Access Developer and XUF-147™ Fixer, are mixed to precise specifications with **Allied's Automixer**. Simply place the concentrate bottles in the wells. Water is automatically added and mixed with the chemical concentrates to ensure batch-to-batch consistency. There is no need for bulky storage tanks, and spills and splashes are a thing of the past.

Features and Benefits:

- Easy to install and operate – no installation charges
- Chemistry is packaged for ease of use
- Mixer serves as a replenisher tank, minimizing use of floor space
- Control panel lights flash when it's time to mix
- Each tank holds 12.5 gallons of replenisher
- Ideal for all rapid-access films

The RAM – C™ when used in conjunction with Allied premium prepress chemicals in thirty or fifty-five gallon drums, feeds up to six processors from one central location. The microprocessor controller automatically ensures perfectly mixed chemicals, batch after batch.

Features and Benefits:

- Saves time and money without sacrificing image quality
- Float switch monitors each chemical and water tank
- Alarm sounds when low tank level is detected
- Feeds up to six processors

LASER – 14 Rapid Access Developer Concentrates – A high capacity, liquid developer and replenisher for a wide variety of films. A single-solution liquid concentrate for processing rapid access camera films, scanner films, imagesetter films, and all conventional rapid access films. Used as both a developer and replenisher. Diluted 1:2 for hard dot films and 1:4 for most conventional rapid access films.

Cat. No.	Gallons	Makes (Gals)	Product Description
28006	2 x 2.5	15 to 25	LASER-14 Developer & Replenisher
28010	4 x 1.25	15 to 25	LASER-14 Developer & Replenisher
28011	2.5	7.5 to 12.5	LASER-14 Developer & Replenisher
28009	30	90 to 150	LASER-14 Developer & Replenisher
28013	55	165 to 275	LASER-14 Developer & Replenisher

PHOTOFix™ (XUF-147) Universal Fixer Concentrates and Hardener – A rapid acting, clean working liquid concentrate fixer for machine or tray processing. This fixer is suitable for use with all graphic art films and papers. Dilute according to use, from 1:3 to 1:7.

28015	2.5	10 to 20	XUF-147 Fixer & Replenisher
28019	2 x 2.5	20 to 40	XUF-147 Fixer & Replenisher
28014	30	120 to 240	XUF-147 Fixer & Replenisher
28018	55	220 to 440	XUF-147 Fixer & Replenisher
28041	4 x 1	1 to 3 Oz/Working-Gal.	XFH-200 Fixer Hardener

PLATE CHEMISTRIES

PHOTOPlate Developer - Used on all conventional aluminum printing plates, Allied's plate developers and finishers produce consistent high-quality images. Not for use on Fuji, Lastra/Western or CTP plates.

Cat. No.	Gallons	Product Description
28120	4 x 1	Plate Developer
28121	5	Plate Developer
28320	4 x 1	Finisher
28321	5	Finisher
28220	4 x 1	2 in 1 Plate Developer/Finisher
28221	5	2 in 1 Plate Developer/Finisher

PHOTADirect SM - Designed for optimum processing of Mitsubishi Silver Master plate products. Our long-life formulations are designed for consistent, reliable results. Simply "drop-in" PHOTADirect SM to replace your SilverMaster chemistry – and realize the benefits right away!

Cat. No.	Gallons	Product Description
28502	4 x 1	Activator
28511	4 x 1	Stabilizer
28520	6 x 1 (quarts)	Etch RTU
28531	4 x 1	Fountain Solution

XPD-556 Rapid Access Developer (Ready-to-Use) – A high capacity, ready-to-use liquid developer for tray or batch processing. Designed for use with hard dot and all conventional Rapid Access films. XPD-556 provides high D-max and low background consistently for quality, economical processing. Recommended for use with XPF-224 Fixer.

Cat. No.	Gallons	Product Description
28037	2 x 2.5	XPD-556 Developer & Replenisher

PHOTOLith™ Lith Developers & Replenishers – A high-quality, universal, two-part liquid concentrate developer suitable for processing most major brands of film and halftone films for tray. Exceptionally clean working and stable with high resistance to oxidation. Dilution 1:3 for most films.

Cat. No.	Gallons	Makes (Gals)	Product Description
28101	2A-2B	12 to 16	65D Developer A&B
28103A	5	15 to 20	65D Developer A
28103B	5	15 to 20	65D Developer B
28105A	55	165 to 220	65D Developer A
28105B	55	165 to 220	65D Developer B

XPF-224 Universal Fixer (Ready-to-Use) – A universal, ready-to-use Rapid Access non-hardening liquid fixer for tray or batch processing. Suitable for use with all Rapid Access films. This long-life, clean working fixer is also formulated for high-capacity applications.

Cat. No.	Gallons	Product Description
28023	2 x 2.5	PF-224 Fixer & Replenisher

PROCESSOR CLEANERS

Cat. No.	Gallons	Makes (Gals).	Product Description
29025	4 x 1/2	20 to 60	PHOTOClean Fixer Cleaner
28560	2 x 3 (quarts)	2 x 4	Permanganate Developer

ENVIRONMENTAL SUPPORT SERVICES

CPAC Imaging has created a specialized network of "On-Site" services providers for imaging professionals. With one call, CPAC can answer technical questions, provide you with a quote for equipment - even dispatch a local service provider to your facility. For environmental support services call: 8 0 0 -4 7 7 -1 4 1 7

Environmental Support Services can be customized to meet your imaging needs, and may include:

Electrolytic Silver Recovery
Metallic Exchange Cartridges
Environmental Consulting
Equipment Installation
Silver Refining Services
Chemical Hauling

Film Recycling
Equipment Quotations
Chemical Recycling
CTP Plate Neutralization
Aluminum Plate Recycling
Chemical Reduction

CONTACT INFORMATION

- To place an order for chemicals call: CPAC Imaging Customer Service: **800-262-9333** or **770-448-0250**
- For environmental equipment and compliance assistance call: Environmental Customer Service: **800-477-1417**

COMPANY PROFILE

CPAC's Imaging Group provides branded and private-label chemistry, environmental compliance equipment, chemical mixers and accessories to commercial customers in the traditional photographic, medical and dental imaging, and printing markets. Products are sold into more than 100 countries through a worldwide distribution network. (Nasdaq NMM: CPAK) www.cpacimaging.com
